

CAMERON GAUDIAN

(507)-910-9200 | cameron.lambert@mnsu.edu | www.gaudian.dev | Mankato, MN

EDUCATION

- Minnesota State University, Mankato**
Bachelor of Science in Computer Science | Minor in Mathematics | GPA: 3.75

Expected Graduation: Spring 2027

PERSONAL PROJECTS

Full-Stack Developer

Jul 2026 – Sep 2026

Lift: A Social-Fitness App

- Developed a streamlined workout logger supporting 100+ exercises with reusable templates and session data.
- Engineered & packaged as a mobile-first PWA using React 19, TypeScript, Tailwind CSS, and a Supabase backend.
- Built interactive Recharts dashboards to visualize cumulative lifting volume, weekly fitness trends, and other detailed stats.
- Implemented social engagement features, including live leaderboards, Spotify soundtrack sharing, and achievement posts.

INDUSTRY PROJECTS

Team & QA Lead

Aug 2026 – Dec 2026

DentalPort: Clinical Portfolio & Networking for Dental Professionals

- Led a cross-functional team to develop a secure and HIPAA-compliant platform with extensive AI features.
- Directed rigorous unit testing and profiled backend API performance to ensure reliable MVP delivery.
- Enforced code quality by managing pull requests and acting as a mentor throughout all roles of development.

Data Modeling Manager

Jan 2026 – May 2026

MNSU Student Flow Visualization Tool

- Designed an Azure SQL database to hold sensitive student data while operating under strict NDA requirements.
- Built pipelines to clean and organize multi-source student records for enrollment, transfer, and graduation flow analysis.
- Utilized a Sankey visualization framework to neatly represent pathways in a user-friendly and interactive UI.

UI & BE Support Engineer

Aug 2025 – Dec 2025

CFC Chatbot: AI-Assisted Support for CFC Software & Documentation

- Developed and maintained documentation for an AI-powered chatbot, improving accessibility to 150+ training resources.
- Tested and debugged application builds, coordinating with integration and QA to ensure reliable end-to-end performance.
- Supported RAG and API functionality by establishing data flow between the chatbot interface and AI retrieval systems.

EXPERIENCE

Software Engineer Intern

Apr 2026 – May 2027

Maverick Software Consulting – Contracted to Thomson Reuters

- Engineered software features and automated test suites for an enterprise flagship AI product, CLEAR Investigate
- Collaborated across developer and QA teams throughout the SDLC, utilizing daily standups and Agile methodologies.
- Ensured stability and strict government compliance by resolving automated regression failures and critical bugs.
